

CHAMPIONSHIP NUMBERS

4.2 TOPPER SAIL

****IF IN DOUBT - PLEASE ASK****

Snip 2/3 mm off the corner of all championship numbers

CHAMPIONSHIP NUMBERS: (please note all measurements are minimums)

- Should be placed on both sides of the sail with the numbers on the starboard side being above the ones on the port side.
- The height of the numbers should be 230mm.
- They may be pre-formed numbers or 'Digital Eights'.
- The preferred style of cutting 'Digital Eights' is shown above.
- The outside corners should be snipped as shown above.
- There should be 45mm between each element of the complete number.
- The numbers should be black or white to contrast the panel to which they are attached (please see the chart).

STARBOARD SIDE

- The starboard numbers are to be in the coloured panel 2nd up from the bottom of the sail.
- The lower edge of the numbers should be placed 45 mm from the lower seam of that panel and start 20 mm from the clew reinforcement.

PORT SIDE

- The port numbers are to be in the bottom coloured panel.
- The top of the numbers are to be placed 20 mm from the top seam of that panel and finish 20 mm from the clew reinforcement patch

ATTACHING NUMBERS

In our experience the best way to stick the numbers down is to peel away a corner, line up the letter and attached the corner. Pull away the backing paper slowly as you push the number onto the sail. Fiddly but it works!

Panel	Number
Red	White
Dark Blue	White
Light Blue	Black
Grey	Black
Yellow	Black
Purple	White
Orange	Black
