

STANDARD TOPPER SAIL

(5.3 sail with 4 white panels)

D.Cockerill 02/05

ADVERTISING

The layout of the new sail means that the whole of the bottom white panel is now available for advertising space. Anything that will fit in a rectangle 1.5m x 0.5m will fit well inside the edges of the panel. Insignia cloth (the same material as sail numbers) is best for logos. Vinyl (even 'banner vinyl') will come off fairly shortly. It is possible to print onto, say, white insignia cloth but large sheets can distort the sail shape. Please ask if you want further information.
