INVOICE Nos for office use

All our boats are carefully chosen and prepared for you. Controls are assembled and put on, sail numbers are attached and everything is tested. Our aim is that you can be sailing or racing your boat within 30 minutes of delivery. The **Sprint** special edition is the best Topper available. Since 2003 **Sprints** have won the World (five times), National (six times) and Inland (six times) Championships as well as the overall National Series (five times). All this at no price premium! Over the last few years we have been developing the standard Sprint and are now able to offer the **Sprint XL**. There is a price premium but the added extras more than make up for it. Included as standard is a Triple Block Downhaul, Carbon Extension and our XL Toestrap System (adjustable centre strap and side straps with bag and bottle holder). The **Club** is designed for racers on a budget or for recreational sailors who want a boat that is more pleasant to sail than the standard rigged version. Controls are like the Sprint but uses more economical rope and blocks. All boats now come with **centre-main** sheeting and long tiller extensions unless you specify otherwise. **Cosmetic** boats will have a blemish somewhere but they are always carefully checked and I like to call you as I am inspecting the boat to check that you are happy with it. **DELIVERY** is free to an event or to training we are attending, otherwise by negotiation. We can generally sort out something. Please feel you can phone on **01243 379 444** for a chat. We are keen you get the right boat for **you**.
